

# Who Am I? The Fruit Group

We are the fruit food group. Can you guess our name? We come in different sizes and shapes. But we all taste great. Eat us every day and you will feel great and be healthy!

Draw a line from the fruit to the name.  
Color the page when you are done!

A matching exercise for a worksheet. On the left, there are eight cartoon fruit characters: a round fruit with a stem, a pear, a kiwi, a strawberry, a kiwi, a round fruit with a stem, and a pear. On the right, there are eight names: pear, plum, watermelon, grape, asian pear, kiwi, strawberry, peach, orange, pineapple, banana, apple, and pear cactus. Dashed lines connect each fruit to its corresponding name. For example, the round fruit with a stem is connected to 'pear', the pear is connected to 'pear cactus', the kiwi is connected to 'kiwi', the strawberry is connected to 'strawberry', the kiwi is connected to 'kiwi', the round fruit with a stem is connected to 'pear', and the pear is connected to 'pear cactus'. On the far right, there are four more cartoon fruit characters: a round fruit with a stem, a pineapple, a bunch of grapes, a pear, a kiwi, and two bananas. Dashed lines connect these to names in the middle column: the round fruit with a stem is connected to 'pear', the pineapple is connected to 'pineapple', the bunch of grapes is connected to 'grape', the pear is connected to 'pear', the kiwi is connected to 'kiwi', and the two bananas are connected to 'banana'.
